

Dear Parents and Carers,

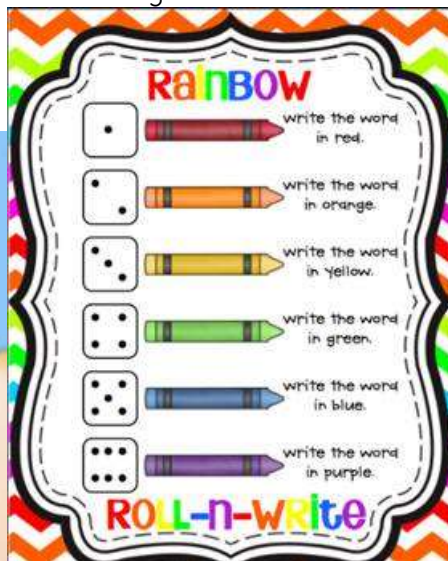

While your child is not in school on Wednesday and Thursday, we have put together some suggestions for remote learning activities that they might like to complete.

Year 1 –

1. Reading
2. Maths – Complete the part whole model to 20 sheet. To extend this activity – you could write more examples or your child can think of their own number facts to 20. This could also be extended to 50.

3. Spelling – All children have been sent home the Little Wandle Tricky Words and the Year 1 Common Exception words. Please practice some of these with your child using pyramid writing and rainbow challenge.

4. Writing – In class we have been learning all about Castles. Can they write a story that is set in a castle. Can they include the key vocabulary? Battlements, portcullis, drawbridge, moat, arrow slits, keep?
